Step-by-step instructions for installing Ubuntu in VMware Workstation Player:

Prerequisites:

Download Ubuntu ISO: Download the Ubuntu ISO image from the official Ubuntu website: https://ubuntu.com/download/desktop

Download and Install VMware: Download and install VMware Workstation Player from the official VMware website: https://www.vmware.com/products/workstation-player.html

Installing Step:

Open VMware Workstation Player:

- Launch VMware Workstation Player on your computer.

Create a New Virtual Machine:

- Click on "File" and select "New Virtual Machine."

Create a New Virtual Machine Wizard:

- Choose "Typical" and click "Next."

Select the Installer Disk Image (ISO):

- Choose "Installer disc image file (iso)" and click "Browse."
- Navigate to the location where you saved the Ubuntu ISO file and select it.

Select Guest Operating System:

- Choose "Linux" as the Guest Operating System.
- Select the version as "Ubuntu" or the version that matches your ISO.
- Click "Next.

Specify Name and Location:

- Enter a name for your virtual machine.
- Choose a location to save your virtual machine files.
- Click "Next."

Specify Disk Capacity:

- Choose the disk size for your virtual machine. The recommended size is at least 25 GB.
- Select "Store virtual disk as a single file" for simplicity.
- Click "Next."
-

Ready to Create Virtual Machine:

- Review your settings and click "Finish."
-

Adjust Virtual Machine Settings (optional):

- Before starting the virtual machine, you can adjust settings like RAM, processor cores, and other advanced options by clicking "Edit virtual machine settings."

Start The Virtual Machine:

- Click "Play virtual machine" to start the installation process

Install Ubuntue:

- The Ubuntu installer will start. Follow the on-screen instructions to choose your language, keyboard layout, and other settings.
- When prompted, select "Install Ubuntu" to begin the installation process.

Configure Ubuntue:

- Follow the installer prompts to configure your time zone, keyboard layout, and create a user account.

Complete Installation:

- Once the installation is complete, click "Restart Now."

Remove Installation Media:

- When prompted, remove the installation media (the ISO file or CD/DVD) from the virtual machine.

Login To Ubuntue:

- After the virtual machine restarts, log in with the username and password you created during the installation.
